

# CELLEBRITE GUARDIAN FUNDAMENTALS (CGF)

## Course Description

The Cellebrite Guardian Fundamentals training is designed to provide a foundational overview of Cellebrite's Guardian platform and its core applications. Participants will gain practical insights into Guardian's role in securing evidence, enabling collaborative investigation with advanced, cloud-based solutions, and support investigative stakeholders throughout the entire Case-to-Closure Journey. This course consists of three modules:

1. Overview of the Guardian Platform: Explore the purpose, architecture, and benefits of Guardian as a secure, cloud-based solution for managing digital investigations.
2. Introduction to Guardian Investigate: Examine how Guardian Investigate streamlines investigation management with advanced data visualization tools, global collaboration capabilities, and AI-driven insights to accelerate case resolution.
3. Introduction to Guardian Forensics: Recognize how Guardian Forensics centralizes complex evidence management, preserves chain of custody integrity, and integrates with Cellebrite tools for efficient forensic workflows.

# Course Learning Objectives

Upon successful completion of this course, students will be able to:

- Explain the Guardian platform's purpose and structure, including its role in accelerating digital investigations and maintaining secure workflows.
- Explore Guardian Investigate's array of investigative solutions, such as case lead management, case subject analysis, task management, Ask Your Data AI, evidence analysis tracking, and data review tools for managing investigative tasks.
- Describe Guardian Forensics workflows, including secure evidence receipt workflows, forensic assignment management, and audit-ready reporting for forensic labs.
- Identify integration points between Guardian applications and other Cellebrite tools, ensuring seamless data handling and chain of custody integrity throughout investigations.
- Recognize best practices for secure collaboration and chain of custody management within Guardian's cloud-based environment.

## Empowering Justice through Expert Digital Forensics Training

Cellebrite Training is a leading provider of digital forensics education, offering a comprehensive suite of courses designed to empower professionals in mastering the techniques, tools, and methodologies essential for navigating the complexities of digital investigations.
