

# CELLEBRITE OPERATOR OF INSEYETS.UFED (COIU)

## Mobile Forensics

### Course Description

Cellebrite Operator of Inseyets UFED is a 4-hour overview course that introduces the advanced extraction workflows for Android and iOS devices through Premium and next-generation UFED. The course also introduces Triaging features that allow for device scanning of key attributes to determine if a full extraction is warranted. Foundational concepts in mobile forensics are briefly reviewed for context and application of forensic workflow.

Level

Entry/Beginner

Length

Half-Day (4 hours)

Delivery Mode

Self-Paced

# Course Learning Objectives

---

Upon successful completion of the course, the student will be able to:

- Recall the features of UFED technologies for mobile extractions.
- Use Inseyets UFED features for accelerated extractions and optimized workflows.
- Use the Triage features in Inseyets to quickly identify and prioritize digital evidence for future analysis.

## Note

---

This course is aimed for customers who are transitioning from the legacy Repsonder Kiosk into the latest Inseyets forensic suite. Cellebrite strongly encourages customers to carry on their educational journey by progressing onto the CCO and CCPA Inseyets certification to gain a full and holistic understanding of the tools.

## Empowering Justice through Expert Digital Forensics Training

Cellebrite Training is a leading provider of digital forensics education, offering a comprehensive suite of courses designed to empower professionals in mastering the techniques, tools, and methodologies essential for navigating the complexities of digital investigations.
