Course Description

Cellebrite Pathfinder Enterprise/Teams (CPET) is a two (2) day course designed for familiarizing users with the Cellebrite Pathfinder solution. The course is ideal for investigators, analysts, and prosecutors tasked with analyzing cloud-based and digital evidence. This course focuses on the use of Pathfinder software to expedite the investigation using artificial intelligence to highlight relevant leads so cases can be resolved more efficiently. The Enterprise/Teams version of the course includes an overview of the User Management System (UMS), the mechanism for configuring multiple users, which allows for collaborative case management, while the Single User version of the course focuses on the single user's desktop installation experience. Attendees will receive a certificate of attendance.

Investigative

Cellebrite aims to support learners in the pursuit of excellence in Digital Intelligence specialty areas without the need to commit to any degree program. Cellebrite's Academic & Learning Paths provide guided training programs and continuous skill set development to achieve various levels of educational or professional goals.

By following a learning path, students can target personal, professional, and leadership skills in a Digital Intelligence career for law enforcement, military, intelligence, and private sector practitioners. Cellebrite's curriculum reflects its commitment to digital intelligence excellence by helping training forensics examiners, analysts, investigators and prosecutors around the world to achieve a higher standard of professional competence and success. Below are general audiences and focus areas relative to this course.

- Corporate Investigators
- Intelligence Analysts
- Administrators
- Legal Professionals
