Cellebrite Pathfinder Training (CPT)

Course Description

Cellebrite Pathfinder Training is a two (2) day course designed for familiarizing users with the Cellebrite Pathfinder solution. The course is ideal for investigators, analysts, and prosecutors tasked with analyzing cloud-based and digital evidence. This course focuses on the use of Pathfinder software to expedite the investigation using artificial intelligence to highlight relevant leads so cases can be resolved more efficiently. Additional emphasis is placed on creating evidentiary visuals that can be used in reports. The course includes an overview of the interface, filters, views, and techniques to efficiently use Pathfinder to work collaboratively on case management. Additional topics include how to use key features of Pathfinder for investigation analytics. Attendees will receive a certificate of attendance upon completion.

Level	Length	Delivery Mode
Entry/Beginner	Two-Day (14 hours)	In-Person Virtual

Course Learning Objectives

Upon successful completion of the course, the student will be able to:

- Apply filtering and searching techniques within the Pathfinder interface to efficiently locate and analyze data.
- Identify the main concepts of media analysis in digital forensics and adjust Pathfinder settings for optimized media searching and navigation.
- Perform image searches using Pathfinder to locate specific images on devices.
- Analyze various forms of communication, such as messages and calls, to uncover crucial evidence and discern relevant patterns.
- Apply communication analysis techniques in real-world investigative scenarios, including criminal investigations, civil litigation, and corporate incidents, to provide comprehensive insights.
- Produce clear and concise reports that effectively communicate investigative processes, methodologies, and conclusions.

> **Note:** The successful completion of this course is defined as the student being able to demonstrate proficiency in the course learning objectives by passing a final exam assessment with a minimum score of 80.00% or higher to be awarded a certificate of completion.

About Cellebrite Training

Cellebrite Training delivers expert-led digital forensics education built for real-world investigations. Through hands-on, role-based courses—available in person, virtual, and self-paced—we help professionals confidently handle today's digital evidence challenges.
